Professional Summary

Computer Science student and Front-End Developer specializing in React and TypeScript. Proven track record of delivering responsive, high-performance web applications through top-rated freelance work and rigorous internship training. Passionate about translating complex requirements into minimalist, high-tech user interfaces. Seeking to leverage a strong daily problem-solving habit and UI design skills in a dynamic software engineering environment.

Education

B.S. in Computer Science <i>Damanhour University, Faculty of Science</i>	Expected 2027 <i>Beheira, Egypt</i>
CGPA: 3.6	

Experience

React Front-End Developer Intern <i>Digital Egypt Pioneers Initiative (DEPI)</i>	2026
- Engaged in a comprehensive software development track focusing on building full-stack applications with React and Node.js. - Acquired hands-on experience with version control (Git/GitHub), containerization (Docker, Kubernetes), and modern UI/UX design principles. - Developed a real-world web application capstone project, applying industry best practices in code styling, functional documentation, and unit testing.	
Freelance Front-End Developer <i>Kafail, Upwork, Nafizly, Khamsat</i>	Ongoing
- Delivered high-quality, responsive front-end projects for various clients, maintaining a 5.0/5.0 satisfaction rating. - Translated client requirements into precise, accurate web interfaces with a strong focus on execution speed and detail. - Managed end-to-end project communication, ensuring clear understanding of scope and prompt delivery.	

Projects & Competitions

LexiFlow <i>Smart Systems Hackathon (Top 5 Winner)</i>	2026
- Secured a Top 5 placement at Damanhour University's Faculty of Computer Science and Information hackathon. - Architected a smart system application utilizing neuroscientific research on subconscious language acquisition. - Developed a prototype demonstrating strong potential for a viable ed-tech startup.	

Extracurricular & Community Involvement

Hackathon Participant <i>Devpost Global Developer Community (Build With Gemini XPRIZE)</i>	May 2026 – Present
- Registered and actively competing in a global hackathon, designing and developing an AI-integrated software solution. - Engaging with an international community of developers, leveraging cutting-edge APIs to build scalable applications.	

Event Organizer

Mar 2026

Computer Science Student Team

- Collaborated with peers to successfully organize and execute a local Microsoft technology event, managing logistics and planning.

Technical Team Member

Jan 2024 – Jan 2025

Students for Egypt (SFE)

- Handled technical setup for events and produced professional motion animations and dynamic presentations.
- Created and edited visual assets utilizing Adobe After Effects, Illustrator, Photoshop, AutoCAD, and LottieFiles.

Certifications & Training

- **React, JavaScript, HTML & CSS Full Stack Training — SuperSimpleDev:** Completed extensive project-based coursework covering advanced JavaScript, React, and responsive UI design.
- **Google AI Professional Certificate**
- **AI – Empower Yourself:** Ministry of Communications

Skills & Profile

- **Technical Skills:** HTML5, CSS3, JavaScript, TypeScript, React, Node.js, Express, Python, C++ , Git/GitHub, Docker, Kubernetes.
- **Design & Media Tools:** Adobe After Effects, Illustrator, Photoshop, AutoCAD, Motion Design, LottieFiles.
- **Problem Solving:** Daily coding habit on Codewars (Rank 5 kyu), with over 240 completed Kata.
- **Languages:** Arabic (Native), English (Fluent).
